ADVANTAGES OF VOCATIONAL SYSTEM CAN- VASSED WELL

Army Officer Interprets New Training Scheme

NOTES NEW MORALE

Captain Phillip S. Wood Shows Advantages to Be Gained by New Educational Methods of the Army

Captain Phillip S. Wood, U. S. A., at Convocation Wednesday spoke upon vocational education in the army.

President Hetzel introduced the speaker, saying that his subject should have peculiar interest for New Hampshire students because of the words of Dean Hewitt, who has been instrumental in laying the foundations of the organization of vocational training in the army.

CAPT. WOOD'S REMARKS

"The other day I was at Portland at the Grand Trunk station when I saw a lame Canadian soldier trying to get through the crowd. Nobody made way for him, and he was the last to get on the train. He pulled out a one dollar Canadian bill. The conductor, said, 'That's no good,' without even offering to make allowance for the American-Canadian Exchange rate. The Canadian simply said, 'Well then, I suppose I'll have to get off,' and moved away. Everyone must have seen the incident and have heard what he said, yet no one offered to pay his fare.

This incident shows the attitude of the American people since the armistice was signed. During the war there was a splendid spirit of cooperation of every kind, especially of labor and capital, and they never produced as much before. But as soon as the armistice was signed the morale broke down. Strikes were declared on this side of the water. As for the men in service on the other side, everybody wanted to get home. At first there was a good reception of the men in uniform, but by the time the last troops got home, all the enthusiasm in this country had died down.

Before the war we wouldn't listen to the preparedness programs of Wood and Roosevelt, and we found out our mistake and there was a short time when their programs went on full blast. But now the war is over with we're falling back into our old ways. A short experience as a recruiting officer has shown me what a difficult task confronts one who is trying to get men for the army now.

In an organization inflated to one hundred times its size, as was the U. S. Army, and composed of all kinds of men, those who wanted to go, and those that didn't, the wholly indifferent and the semi-indifferent, it's no surprise that they didn't all like it and some of them came out grumbling.

As the condition now is, a great part of the men available for the army have done their bit, and they don't want to do any more, and you can't blame them, and we've got to get around that situation, the scarcity and lack of interest of men, some way, so the scheme of vocational training has been devised.

Your Dean knows so much about vocational training that I'm a little embarrassed to speak much about it before him. I'll only say that Congress has appropriated two million dollars to carry on the work, and at present it is only in the embryo state.

THE ARMY SCHEME

Now this is no recruiting talk. I don't want you students anyway. We're not encouraging men who can go on in higher institutions to take this up. I am only here to recruit your enthusiasm, and a little sympathy for the army when you get back home. I was looking at some cata-

(Continued on Page Four.)

PROMINENT DURHAM CITIZEN DIES.

Charles E. Hoitt Passes Away After Brief Confinement—Was a Resident of Durham for Sixty-two Years.

Charles E. Hoitt, one of Durham's most prominent citizens, died at his home Monday evening, April 26. Although Mr. Hoitt has been in failing health for more than a year, he was not confined to his home until about three weeks ago. Mr. Hoitt was born in Lee, N. H., March, 1849; he has, however, lived in Durham for sixty-two years. He is survived by a widow, one sister, Mrs. Young of York Beach, and several nieces and nephews. The funeral services were held at the Durham Church Thursday afternoon, April 29.

A PROMINENT CITIZEN

Mr. Hoitt was very well known in Strafford County. He was at one time a member of the state legislature, has been Strafford County Commissioner, and for many years was on the board of selectmen of Durham. During the war he was a member of the Strafford County draft board. He was a charter member of the Sullivan lodge of the Knights of Pythias and a patron of the Scammell Grange. He had many friends among the townspeople, the faculty and the student body, all of whom unite in extending sympathy to his widow.

PROF. W. H. WOLFF

GOES TO SPRINGFIELD.

After nine years of service at New Hampshire College Professor W. H. Wolff of the Horticultural Department and assistant horticulturalist of the Agricultural Experiment Station, has resigned. Professor Wolff will leave Durham next week to take a position as horticulturalist with the Hampden County (Mass.) Improvement League with headquarters at Springfield. During his service at the State College he has made a great number of friends among the farmers of the state through his talks on fruit growing and bee keeping. He has been up and down the state in the interests of the fruit grading and packing law, and given many demonstrations on the pruning and care of orchards. Last year Professor Wolff was a leader in the organization of the New Hampshire Beekeepers' Association, and has been serving as secretary of the society.

The Hampden County Improvement League, with which Mr. Wolff will become identified, has achieved nation-wide reputation as having one of the most complete county staffs in the country from an agricultural standpoint. The League not only has an executive manager, agricultural, home demonstration and club agents, but employs specialists in dairying, soils and crops, horticulture, tobacco, and other lines of work exclusively in the interests of the farmers, of whom 2,000 are members.

NOTE.

Wednesday afternoon, April 28, from four to six, Mrs. Hetzel gave a tea for the senior girls. Other guests were Mrs. DeMerritt, Mrs. Taylor, Mrs. Groves, Mrs. Slobin and Mrs. Butler. Sandwiches, fancy cakes and tea were served. Mrs. Hetzel poured.

MORE THAN 100 GIRLS TO PARTICIPATE IN FESTIVAL.

Elaborate plans are being made for the May festival to be presented by the girls of the college May 15 under the direction of Miss Helen Bartlett, instructor of physical education. The pageant will be patriotic as well as of the May Day nature. Mary Bailey, '20, personifying "Love" will be crowned May Queen. More than a hundred girls will take part in the various scenes, tableaux and dances.

TRACK SEASON TO START SATURDAY

New Hampshire to Send Team to Eastern Intercollegiate Meet at Springfield — Prospects Good—Coach Cleveland Confident—All Men in Good Shape

Next Saturday, May 8, New Hampshire will be represented by a strong track team at the second meet of its Eastern Intercollegiate Athletic Association. The meet will again be staged at Springfield, Mass., and Coach Cleveland expects the Blue and White team to make a strong bid for first honors. It will be recalled that New Hampshire placed third in the meet last year, and the team this year seems fully as strong as the 1919 aggregation.

Andrews, Nute and Stevens, the only three men lost to the team, scored a total of four and a half points in the meet last year, but it is expected that the freshmen on the team this year will count for that number of points.

MEN IN GOOD FORM

In the hundred and two twenty, Captain Felker and Nassikas will probably be entered. Don Melville will be in the century also, and seems to be in good shape. For the quarter, Melville is practically the only man. However, he should be one of the first four to break the tape.

For the half, Nightingale, O'Leary and Baker are all good prospects. "Night" and "Chris" both placed in this event last year, and should have no difficulty in placing Saturday in this event. O'Leary's time in the interclass meet last Saturday was so good that it makes him a possible winner for the 880. Nightingale and Leath should have little difficulty in the mile and two mile, while Billingham or Thompson should place also in the latter event. Nightingale's defeat last year in the mile was due to a poor starter, and he will without doubt make up for his mistake.

In the hurdles and jumps, good material is sadly lacking, and this shortage is likely to hurt the standing of the team. However, Brown or Stafford in the pole vault are getting good height and may place. For the weights, New Hampshire is strengthened. "Buck" Harvell and Batchelder in the shot, are heaving the iron pill a good distance and look like possible place winners. "Shorty" Sawyer will again be on hand for the discus and hammer throw. The latter event was not on the card last year.

CALENDAR OF EVENTS.

May 5.—New Hampshire Day. Baseball: Freshmen vs. Andover at Andover, Mass.
May 6.—Men's Club, Commons.
May 7.—Movies and Y. W. C. A. entertainment. Baseball: Varsity vs. Massachusetts Aggies at Durham.
May 8.—Pi Alpha Phi Dance. Track: New England Intercollegiate Meet at Springfield, Mass. Baseball: Freshmen vs. Exeter Academy at Durham.
May 9.—Book and Scroll at Smith Hall.
May 13.—Faculty Dancing Class. Baseball: Varsity vs. Boston College at Boston.
May 14.—Movies. Baseball: Varsity vs. Connecticut at Storrs, Conn.
May 15.—May Day Celebration. Informal. Baseball: Varsity vs. Worcester Tech at Worcester; Freshmen vs. Haverhill High at Durham.
May 17.—Agricultural Club at Morrill Hall. Radio Club at DeMeritt Hall.

MOVIES.

"Billie" Burke gave much pleasure to a large audience Friday night, April 30, when she played the part of "Annabelle Leigh" in the "movie" entitled "Goodness Gracious, Annabelle." Instructive pictures and a comedy scene were also shown.

NIGHTINGALE DEFEATS GREAT ENGLISH RUNNER, MONTAGUE IN THE INTERNATIONAL INTERCOLLEGIATE 3-MILE RACE

New Hampshire's Star Athlete Makes Great Record at Annual Penn. Track Carnival

BIG CROWD CHEERS VICTOR

Former Track Captain Shows Great Ability—Leads Field Home After Wonderful Battle—Heavy Downpour Slows Up Time Of Wonderful Performance

With nearly a dozen of the fleetest college distance runners of the United States and E. A. Montague, England's greatest long distance runner as competitors, Gordon T. Nightingale, New Hampshire's greatest athlete, won the International Intercollegiate three-mile race at Philadelphia last Friday afternoon in fourteen minutes and fifty-six seconds.

At the start of the race eleven men jumped away with Montague at the pole, McMahon of Tech running second and Nightingale in the third lane. The Englishman held back at the start allowing nine men to pass him on the first turn. Graf of Nebraska took the lead at the start and set the pace for the first mile. At the half mile mark his time was 2.22 and he was leading the others by about nine yards while the trailing pack was

ain's colors who in turn was a half yard behind Nightingale.

He attempted to gain the lead in the next lap but Nightingale was running well within himself and stretched out on the straight away leaving the Englishman several yards behind. On the curves Night slowed up allowing Montague to catch him but kept ahead of him just enough to force the British champion to run on the outside. This piece of hard work gave Nightingale a decided advantage over his opponent and it seemed at the two mile and one half mark that the Granite State lad would be the winner. Here Nightingale uncorked a sprint for several yards which indicated a tremendous reserve power and apparently discouraged the fast weakening Montague.

At the two and three-quarter mile mark Montague was in distress, running with great difficulty while Nightingale had just completed his fastest lap and was running smoothly in spite of the heavy downpour of rain and the strain of the race.

In the last lap "Night" continued to clear away from the trailers and finished in remarkably good condition with Montague wabbling down the track 45 yards behind and with McMahon, the Massachusetts man, a full thirty yards behind Montague.

In winning the international race in such splendid time, considering the heavy rain, Nightingale showed the largest crowd of spectators that ever flocked to the Penn. athletic games that he has the ability to win a real race and that he has confidence in himself. The big crowd gave Montague a great reception as he came onto the field, knowing that he was England's best, and that it had been at his special request that the three-mile race had been arranged. The other runners however were given their share of applause.

CROWDS CHEER

As Nightingale took the lead and plowed along the mud-covered track with a stride that drove the Britisher into the ground, the whole crowd of spectators rose in the stands and gave cheer after cheer to the New Hampshire man who was beating the greatest of England's racers.

At the close of the race the New England Intercollegiate cross-country champion walked off the field while Montague lay on the ground apparently exhausted. It was indeed a sad day for the Oxford lad who had established such a wonderful record in England but the man who was so thoroughly beaten was a true sportsman, having put every ounce of energy he could muster into the race.

With this great and brilliant performance to his credit Nightingale has returned to New Hampshire with almost certain assurance that he will compete in the Olympic games at Antwerp.

GORDON T. NIGHTINGALE
Who Defeated E. A. Montague of Oxford

close together and running well. The time for the first mile was 4.55 and Montague was running easily in the fourth position. At the mile and a half mark McMahon of Tech snatched the lead with Montague following barely a stride ahead of the others. The pace began to slacken however at this point in the race and at the mile and three quarter mark Nightingale took the lead.

"NIGHT" TAKES LEAD

"Night" had been clinging closely to the pole all the way leaving it barely long enough to stride out around the leaders to the leading station and he turned in the time of 10 minutes flat for the two-mile distance and was running smoothly. Montague and McMahon were about a yard behind and running close together. However the Tech man was fast tiring and at the two and one-half mile mark he was ten yards behind the defender of Brit-

WHERE'S THAT "SKIMMER?"

In any systematically managed organization, be it a great corporation or not, there is always opportunity for promotion. The common laborer has his aspirations guided by the man at the top. In order to attain a position of high rank one must have been associated with the corporation for some time, and be an individual worthy of promotion.

The lift of each college man is similar to that of an employee in a large industrial concern. Some are green and some are more or less seasoned by rubbing against the shoulders of the men higher up for several years. Men who have spent a part of one year here are the ones who should have a certain moderate amount of respect for those who have had the experience of several years of college life, and who are more competent to decide the manner in which college customs should be observed. In past years the sophomore class has appointed a certain delegation to draw up the conventional rules for governing the incoming freshmen. This has always been a college custom, and probably always will be, but where is the regard and respect for those rules that has always been traditional in accordance with the rules themselves? It is gone. Almost irreparably shattered by the present freshman class. From their "deferential" air it is necessary to look twice and then make a rash gamble as to whether the man is a freshman or a senior.

Gone are the good old days when the "Frosh" would juggle a senior's trunk in anticipation of the time when they too would have some future freshman to carry their own. Even when there is a call for volunteers to fix the athletic field, carry chairs, or do some other not particularly desirable task but entirely necessary for the welfare of the college the majority of the men are other than freshmen.

On the campus an open defiance of all sophomore rules is evinced by a great majority of the freshmen. The prescribed "skimmer" is donned whenever it suits the juvenile fancy, sweaters are more the style than coats, cuffs grace the lower extremities of the trousers, and studies are supplanted by daily exhibitions of chivalry and concentrated attention to the co-eds. But this is not the most unpardonable act of these most extremely erudite sophists. There are many who would seem to resent and scorn the very presence or suggestion of the upper classmen. This certainly is not the right attitude to be held, nor does it tend to unify the good will of one class toward the other. Although the "dog party" is now an obsolete method of instilling both reason and respect into the unsophisticated, it seems as though any freshman should have a reasonable periors. A democratic college such

as this should be a place where the obnoxious snobbishness must be eradicated, so think over this question, find out whether you need to mend your ways, and if so get about doing so even though it smashes that egotism of which you pride yourself so unworthily.

BISHOP PARKER VISITS COLLEGE.

Speaks to Members of Young Peoples' Organization After Hard Day's Work—Discusses Problems of Americanization

The Right Reverend Edward Parker, Bishop of New Hampshire, has been spending the week-end in Durham. The Bishop had a very full program on Sunday: Holy Communion at eight for Episcopal students; a sermon delivered at the morning service at eleven, a tea in his honor in the afternoon, and a talk before the N. H. Y. P. O. in the evening.

The Y. P. O. meeting was opened with the singing of hymns; and Edson Bailey, '22, announced the annual election of officers next Sunday. Mr. Bailey then introduced Bishop Parker, announcing his subject, "Americanization."

The Bishop said in part: "This is a subject in which I am tremendously interested. The imminence of it in New Hampshire demands attention. I see there are a few Concord girls and boys here tonight. This is what we have in Concord: Greeks, Poles, Albanians, French Canadians and Mohammedans.

Now there's Berlin. Let me tell you something that happened in Berlin. There was an English speaking Russian Jew working in the Burgess Mills. He came to the French and Irish mill bosses and said, 'Look here, you're missing something. There's a big crowd of Russians here that don't speak English. I'll go to them and tell them they have to pay \$2 to get their jobs and fifty cents a week to keep them, and then we'll divide up the profits. They're used to bribery in Russia so they won't mind it.'

The mill owners, mind you, didn't know a thing about it. When Mr. Wolff found it out he was the maddest man in New Hampshire. He got a special law passed by the state legislature to prevent anything like that happening again.

Here is a story of the Berlin police court. First let me tell it as it appeared on the police court blotter, simply that a Russian Jew, Ivan Ivanovitch was arrested for drunkenness and disorderly conduct, brought before the court, paid a fine of five dollars and costs and was dismissed.

SAVINGS ARE STOLEN

This is what actually happened. Another Russian Jew with a command of English and some years' knowledge of this country, had learned that his fellow countryman had savings to the amount of two hundred dollars tucked away in his stocking or somewhere. So he and another fellow got Ivan drunk and into a row and arrested. Then when he was brought to court they said, 'You're in an awfully bad position. You've done something pretty bad in America and they could put you in prison a year for it.' So they got Ivan terribly frightened, and at last the English speaking Russian said, 'Perhaps I can help you, have you got any money? I think I can buy the judge and let you off. Judges are very expensive in Berlin, I could do it for fifty dollars.' Before he got through Ivan had bought the whole police court with his two hundred dollars.

All the time the judge was absolutely innocent and unaware of what was happening. He didn't know Russian and when the 'helpful friend' was talking to Ivan in Russian the judge didn't suspect anything.

Saying, "I'll take you to a more agreeable scene in Manchester," the Bishop described the picturesque parade with cross and candles, dirges and litanies of the Greeks on Good Friday.

With scenes like this in Manchester, Concord and Berlin, and thirty-one men sent from Lincoln to Deer Island to be deported as dangerous Bolshevik supporters, can you say Americanization is going on?"

NEEDS INDIVIDUAL INTEREST

The Bishop illustrated the Roberts' method of teaching English, the method used by the Y. M. C. A., em-

phasized as Mr. Brooks had done, the foreigner's contribution to America and his decided non-inferiority amounting to decided superiority in many fields; and at every point made a plea for the personal touch, denouncing repeatedly the folly of attempting to Americanize the foreigner en masse and talking to him by the thousand. He spoke to the girls of the problem of the foreign woman who can be reached only by the interest and sheer sisterhood and kindness of the American girl.

Then he told of the interest and enthusiasm of making a special study of some one country, for the only way to really help the foreigner is to know something about him. At this juncture Bishop Parker described the intense national spirit of the Albanians as a factor to be reckoned with and instrument to use.

The meeting was then thrown open to discussion and the Bishop asked and answered questions and the fact was brought out that in nearly every little town in the state there is at least one foreign family.

SOPHOMORE HOP HELD AT "GYM" WELL ATTENDED.

The Sophomore Hop given in the gymnasium May 1 was a great success; it was very well attended, and the music furnished by the College Orchestra, was remarkably good. To make this dance differ from others, a grand march, headed by Karl R. Fowler, '22, class president, and Ruth Prescott, '23, preceded the evening of dancing.

Palms and fraternity banners were used as decorations and the spot light was the feature of all the waltzes.

The chaperones were Mrs. E. P. De-

Merritt, Mrs. M. N. Sanders, Mr. and Mrs. Heber De Pew, and Mr. and Mrs. Charles L. Simmers.

PRESIDENT HAS MANY SPEAKING ENGAGEMENTS.

President Hetzel is scheduled for addresses before two important state organizations during the next two weeks. He will speak before the State Congregational Conference at Concord, Thursday, May 13, and before the State Federation of Women's Clubs at Concord, Tuesday, May the 18th. President Hetzel also has several high school commencement addresses scheduled.

James Alson Purington, '16, has joined the extension service of the college as County Club Leader of Cheshire county with headquarters in Keene, N. H. After his graduation in 1916, Mr. Purington took up graduate work at M. A. C. doing teaching work at the same time. While here he enlisted in the Sixth Battalion, 20th regiment, army foresters, and sailed for France on the Tuscania when it was sunk by a torpedo from a German "sub." Mr. Purington only escaped drowning by resting on two oars tied together for three hours before he was picked up. He is a native of Weare, N. H., and went through the high school at Contoocook, N. H., before coming to New Hampshire College.

Greater X-ray Service—through Research

FOR years after the discovery of X-rays it was evident that only intensive research could unfold their real possibilities.

Meanwhile, scientists of the General Electric Company developed the process of making wrought tungsten. This proved ideal as the target in X-ray tubes and its use for this purpose soon became universal.

Then further research resulted in the development of an X-ray tube of a radically new type—the Coolidge Tube—with both electrodes of wrought tungsten and containing the highest attainable vacuum.

But the complication of high-vacuum pumps made the new tube in large

quantities impossible. The answer to this problem was the Langmuir Condensation Pump, utilizing mercury vapor in its operation and almost automatic.

To meet the need for simple X-ray apparatus during the war, the G-E Laboratory developed the Self-Rectifying Coolidge Tube, which made possible portable outfits at the front. The latest X-ray outfit of this type is so small it can be taken conveniently to the home or to the bedside in the hospital.

Thus the Research Laboratory of the General Electric Company continues to serve, that progress in things electrical may continue for the good of humanity.

ELECTRIC WELDING PROCESS EXPLAINED

C. H. Haddel Gives Fine Talk to Engineers

DETAILS INTERESTING

Electric Arc Welding an Interesting Profession—Methods Are Explained and Types of Equipment Analyzed—Profiteering Not Barred

C. H. Haddel, engineer for the General Electric Company at West Lynn, gave at the regular meeting of the Engineering Club Monday night, an interesting lecture on electric arc welding.

Mr. Haddel explained the history and development of the arc, and the types of machines now in use. The carbon arc, one of the first forms to be used commercially, came into use in 1885. This arc when used on low voltage was very inefficient. There were several reasons for this inefficiency, one being that the resist-

ance was not in series with the arc as is necessary.

WAR AFFECTS DEVELOPMENT

The war which made it necessary to economize all resources, stimulated the perfection of the so-called constant energy type of machine. This type of arc uses a metallic electrode, and is divided into two classes; one which is connected to D. C. supply; and the other, designed to be used in isolated places, is a complete unit which may be run by any source of power.

The cost of these units range from \$800 to \$1,000. One of these machines will keep two or three men busy welding. Since seventy-five per cent. of the success in welding depends on the ability and efficiency of the workmen, the General Electric Co. conducts a school, to which any company purchasing a machine, may send their men, free of charge, to learn the process of welding. The time required to learn welding is from six to eight weeks.

ARC USED FOR METALS

The electric arc is used to weld steel, bronze, copper, aluminum, cast iron, etc. Professor E. L. Getchell, who used to do welding before he took up the teaching profession, asked many interesting questions about the welding of cast iron. Mr. Haddel explained that cast iron must be welded when the whole casting is at a red heat, in order to prevent internal stresses from being set up when it cools.

Mr. Haddel explained in detail the different methods used to protect the eyes and skin from the ultra-violet and infra-red rays given off by the electric arc. In the metallic arc welding the operator holds the arc in one hand and a shield with ruby glass windows in the other. While using the carbon arc he wears a mask.

USED ON SHIPS

The most extensive use of the electric arc during the war, was made in the building and repairing of ships. A notable example of this use was shown in the repairing of the great German liners, which were partly wrecked by the crews.

Mr. Haddel finished his lecture by explaining that profiteering is not barred from the business of welding. He cited a case in which a welder charged five hundred dollars for the repairing of a certain machine, when, as he told Mr. Haddel, he could have charged fifty dollars and made a good profit. However, the company would rather pay the five hundred dollars and have the machine repaired in a short time—than to pay two thousand five hundred dollars for a new machine and have to wait a year or so for it to be delivered.

EXTENSION SERVICE NOTES.

Prof. C. J. Fawcett spoke at Milton April 22, before the Pomona Grange on the subject of "Green Crops to Supplement Pasture in Feeding Livestock."

C. B. Wadleigh, '18, has been appointed acting State Club Leader in Boys' and Girls' Club Work due to continued illness of H. A. Mostram. Mr. Wadleigh has had experience as county leader in club work in Rockingham county.

Mr. George S. Waugh has been appointed extension agent in Dairying and will begin his duties in that position May 1. Mr. Waugh is a graduate of Rhode Island State, is farm raised and has had considerable experience in cow-testing work in New Jersey. In this position he will supervise the twelve cow-testing associations which the extension service is operating in the state.

The county club leaders in Cheshire, Carroll and Hillsboro counties have lately been appointed. Mr. J. A. Purington is to be in charge in Cheshire, H. B. Thompson in Carroll and J. E. Miltimore in Hillsboro counties.

REV. MR. DABNEY TALKS ON SOCIAL EXPERIENCES.

Rev. Vaughan Dabney of the Durham church addressed the class in Rural Sociology (Sociology 5c) at its regular meeting Thursday at ten o'clock. Mr. Dabney came at a request from Dean Groves, to speak to the class on the subject, "The Problem of the Country Church." Mr. Dabney's talk was very interesting, he centered attention on concrete questions, drawing illustrations from his own personal experience in that kind of work.

LIBRARY

PROMINENT AMERICAN LIBRARIES.

III. Boston Public Library.

Until comparatively recent years the Boston Public Library has been the largest and most important public library in the United States. Started in the decade preceding the Civil War, by the pioneer leadership of George Tichnor and Edward Everett, the library first opened its doors to the citizens of Boston in the year 1854. Since then it has grown tremendously both through the purchase of books and through gifts both of books and of money. Its chief reading-room is named Bates Hall after Joshua Bates who gave over \$100,000 to the library. Perhaps its two most notable collections of books are the Ticknor collection of Spanish literature and the Barton collection of Shakespearian and English Literature.

In 1858 the library moved into a new building on Boylston Street costing \$365,000, and this remained as the central library until 1895 when the present magnificent structure on Copley Square was occupied.

The first librarian, or superintendent as he was then called was C. C. Jewett, who managed the library from 1857 till his death in 1868. His successors have been Justin Winsor (afterwards librarian of Harvard College, Chamberlain, Herbert Putnam now librarian of Congress), J. L. Whitney, Horace Wadlin and since 1917 C. F. D. Belden.

The book collection numbered 97,386 vols. in 1861, 297,000 vols. in 1876, 922,348 vols. in 1908 and the last annual report gives it as 1,157,326 vols., making it the second largest public library in the United States.

Boston has always been looked up to as the center of learning in the United States. Her libraries, the Boston Public and the Boston Athenaeum and the Harvard University have more valuable and scholarly books than any other except possibly the Library of Congress and thousands of pilgrims come every year to Boston to consult the books at the Public Library. It was a leader in library extension service and today has thirty branches and hundreds of deposit and school collections. It employs over six hundred persons on the library staff. The library on Copley Square is well worth a visit while in Boston, if for no other purpose than to view the famous Abbey picture of the Holy Grail.

FRESHMEN LOSE TO WESTBROOK

Visitors Come from Behind and Win 8-5—Kroog Pitches Well for Freshmen—Cahill Fans 13-23 Out-hits Their Opponents

The freshman baseball team was defeated last Tuesday by Westbrook Seminary, 8-5. The yearlings were in the lead 5-2 in the sixth when the pitchers were changed. The Maine schoolboys got to McGreal in the seventh for five runs and clinched the game.

Kroog, who pitched the first five innings, showed up well and deserved to win. The freshmen counted three times in the third on singles by Kroog and Gustafson, a double by Lewis, a pass, a hit batsman and a sacrifice. Lewis again doubled in the fourth and scored on Ray's two-base clout. Roy got another counter in the seventh, getting a life on an error and stealing second, scoring on an error by the catcher.

In their half of that session, Westbrook got five runs, resulting from two hits, two passes, an error and a hit batsman. Lewis and Gustafson played well, excelling at the bat, while Flaherty and Cahill featured for the visitors.

FIRE SEARCH FRUITLESS.

Colonel Snow and Mr. Gamash had a fruitless trip last Wednesday, April 21, in search of a forest fire which was reported from Durham Point. It has been subsequently found that the fire was in some unused buildings on the Eli Edgerly farm. Little damage was done.

FOR PARTICULAR MEN

The question is—where to get the biggest value in Men's Clothing. Without a moment's hesitation we say—HERE. The clothes we sell are made by manufacturers who have the reputation of giving the best values as well as the newest styles.

We have kept our prices down to the very lowest by cutting our profits to the smallest possible margin.

LIFE AT SILVER BAY PICTURED BY GIRLS

Y. W. C. A. Pageant Is Given at
 Weekly Meeting—Realistic Features
 Worthy of Comment

"One Perfect Day," a pageant presented by some of the members of the Silver Bay Club took the place of the regular Y. W. C. A. meeting, Monday evening, at Smith Hall. A day as spent at the Y. W. C. A. conference of college girls at Silver Bay was cleverly depicted by Marjorie Saxton, '29, association leader; Beatrice Brooks, '20, Louise Burdette, '21, Dorothy Chase, '21, Ruth Barker, '22, Eleanor Sawtelle, '22, Dorothy Shand, '22.

METHODS EXPLAINED

Rev. Mr. Vaughan Dabney and Miss Orra Phelps, also participated. Mr. Dabney teaching a class in Bible study, and Miss Phelps explaining the scenes as they were presented and leading a discussion class. These classes were very interesting the discussion making an appeal because local problems were considered such as student government and daily chapel service.

All features were presented in such a realistic manner from the ringing of the alarm clock to the evening sing and the quiet hour that many in the audience felt they had spent or at least wished to spend a day at Silver Bay.

NEW HAMPSHIRE STAFF IS DINED

Durham Church Gives Members Fine
 Dinner Party in Vestry—Prof.
 Scudder Is Toastmaster—Col-
 lege Paper Declared a Com-
 munity Need

The officers, members of the staff and all others who are connected with The New Hampshire were given a dinner party, by the Ladies' Aid, last Tuesday afternoon in the church vestry. The tables were attractively decorated with burning candles and beautifully tinted plants which immediately won the admiration of the guests.

PROGRESS TRACED

Prof. H. H. Scudder, who was toast master, sat at the head of the table. After an excellent dinner had been served in a pleasing manner, Mr. Scudder extended to Mrs. J. S. Chamberlain, president of the Ladies' Aid Society, the appreciation which was felt by the entire group. In her reply, Mrs. Chamberlain showed the extreme need of the New Hampshire not only for the students but for the townspeople as well. Mr. Scudder presented a brief history of the college paper covering the time from its first publication to its present stage. According to Mr. Scudder The New Hampshire has surely developed and is continuing to do so. Remarks were made by Mr. Dabney and by C. J. O'Leary, Jr., '20, managing editor of the New Hampshire.

ADVANTAGES OF VOCATIONAL SYSTEM CANVASSED WELL.

(Continued from Page One.)

logues of army vocational schools when I was in Portland, and I counted eighty different courses in one catalogue. This scheme gives a man the privilege of learning any kind of a trade and also affords a splendid educational opportunity for illiterates.

The idea is to produce in three years' time a trained soldier also fitted to carry on some trade in the industrial world. Under this program the recruit's mornings during his training period, are taken up with drill, his afternoons with the vocational training part of the program, and thus the scheme has benefitted himself, the army and the country.

Though I am not an alarmist, I point out the necessity of keeping the army in fighting trim. You can easily imagine the results, if the German hordes had poured into this country in 1914. Next time there may not be any Belgium, or France, or England ready to hold them off while we take our own sweet time in getting prepared.

Now I come to the delicate part of my talk, just a few words to the men who have been in the service. It's easy to knock, but you can't with any consistency get up Memorial Day and howl about the glorious deeds of the army, when the rest of the time you're saying what rotten times you had when you were in the army.

In closing I want to leave two thoughts with you: first, that an enormous war time army with both cause and excuse for dissatisfaction is not a fair basis of comparison for a peace army with those causes removed; and secondly, that this peace army may become some day a great people's university, supplying a higher education to those men who cannot afford to pay for it in the academic colleges and universities of the country."

THE MEDIUM OF EXCHANGE.

MONTANA

The student body and faculty members of Montana State College are taking a poke at H. C. L. by wearing overalls, gingham, olive drabs, aprons and other articles that tend to cut down the cost of clothing. This is the greatest movement towards the leveling of classes in the history of the institution. On April 23 over 300 men had signed the pledge to wear overalls or other cheap clothing for the remainder of the year. A few are considering this plan in the form of a joke but this will wear away as the students realize the value of this plan in lowering the cost of an education.

RUTGERS

The Life Work Conference of the Reformed Church in America was held last week beginning April 15 to April 17. The purpose of the conference was to place before the young men who are choosing their life work, the full meaning of the Christian ministry. The ablest men in various fields of endeavor placed the facts squarely and plainly before the students. One of the most important features of the conference was the personal interview work in which the men were personally interviewed.

Among the noted speakers were Dr. Zwemer, Dr. Warnshuis and Rev. Watermuller all of whom are missionaries.

VERMONT

Theodore Newton Vail, trustee of the University of Vermont, died April 16 in Baltimore, Maryland, after a serious illness. Mr. Vail was born in Ohio but always had a deep interest in the welfare of Vermont. In order that the boys of Vermont might receive a better knowledge of scientific agriculture he established the Vail School at Lyndon. Later he became a trustee of the Agricultural college of the University of Vermont. Mr. Vail was interested in electricity as well as in agriculture and was known as an electrical genius. His death marked the passing of a man who meant much to the young people of Vermont.

MAINE

Through the will of Mr. Frederick K. Hill, who died recently, the University of Maine receives a bequest which is estimated to amount to \$300,000. The interest of this fund is available yearly and at an interest rate of 5 per cent. the yearly income will amount to \$15,000.

TUFTS

Junior Day of 1920 spelled with large red letters on the Tufts social calendar will be the biggest and best in years if the plans of the present 1921 Junior Day Committee go through to a successful conclusion. The Junior promenade will be held on the evening of May 13 in Goddard Gym. The day itself, May 15, begins with the raising of the flag on the quadrangle which is immediately followed by the planting of the Ivy and the Ivy Oration. The remainder of the program is filled with many new and interesting innovations such as will make this Junior Day a blooming success.

FRESHMEN EASILY WIN CLASS MEET

'23 Outpoints Other Classes—Scores
 More Than Half of Total Points—
 Hobart High Point Winner with
 13, Nassikas Gets 10—Juniors
 a Poor Second—Letter Men
 Not Allowed to Count in
 Score

The Freshmen captured first honors easily in the interclass meet last Saturday, getting 59 points. Juniors were second with 27, Sophomores third with 17, and Seniors fourth with 11. The yearlings turned in some fine performances, and there was never a bit of doubt but what they would easily win.

The best performance of the afternoon, was O'Leary's victory in the half mile. Chris. jumped into the lead at the gun and sped around twice, breaking the tape an easy winner and lowering the local track record by a fraction of a second. The 440 was also a good race, Hunt leading all the way to the 300-yard mark, when Melville took the lead and sprinted home three yards to the good. Felker had an easy time in both sprints, although Nassikas pushed him hard in the full-length.

LEATH WINS MILE

In the mile run Leath took the lead and held his position during the four circuits although Hubbard stuck close at his heels and made a plucky effort to pass in the final sprint. Billingham took a big lead in the two-mile which the other men were unable to overcome but Thompson reduced the distance in a killing sprint.

"Shorty" Sawyer took first in the hammer and discus while "Buck" Harvell beat out Batchelder in the shot put. Walker cleared the high jump bar the highest, while Brown topped the bar in the pole vault for first place. Morrison won the broad jump for the freshmen and Lane took the hurdles, the only senior first place winner.

The summary:

100-yard dash. Won by Melville, second, Felker; third, Nassikas, '23; fourth, Rogers, '23; fifth, Litchfield, '23.

220-yard dash. Won by Felker; second Nassikas, '23; third, Hunt, '21; fourth, Rogers, '23.

440-yard dash. Won by Melville; second, Hunt, '21; third, Baker, '21; fourth, Brooks, '23.

880-yard run. Won by O'Leary; second, Baker, '21; Doran, '22; Lagasse, '21.

Mile run. Won by Leath; second, Hubbard, '21; third, French, '23.

Two-mile run. Won by Billingham; second, Thompson; third, Weston; fourth, Graves; fifth, Patrick, '23; sixth, Alling, '22.

220-yard low hurdles. Won by Lane, '20; second, Newell, '23; third, Litchfield, '23.

High jump. Won by Walker, '21; second, Cotton, '23; third, Mansell, '22.

Broad jump. Won by Morrison, '23; second, Mansell, '22; third, Rogers, '23.

Pole vault. Won by Brown, '20; second, Stafford, '23; third, Cree, '20.

Hammer throw. Won by Sawyer; second, Hobart, '23; third, Cassillo, '22; fourth, Cotton, '23.

Discus throw. Won by Sawyer; second, Hobart, '23; third, Mansell, '22; fourth, Cotton, '23.

Shot put. Won by Harvell; second, Batchelder; third, Cotton, '23; fourth, Hobart, '23.

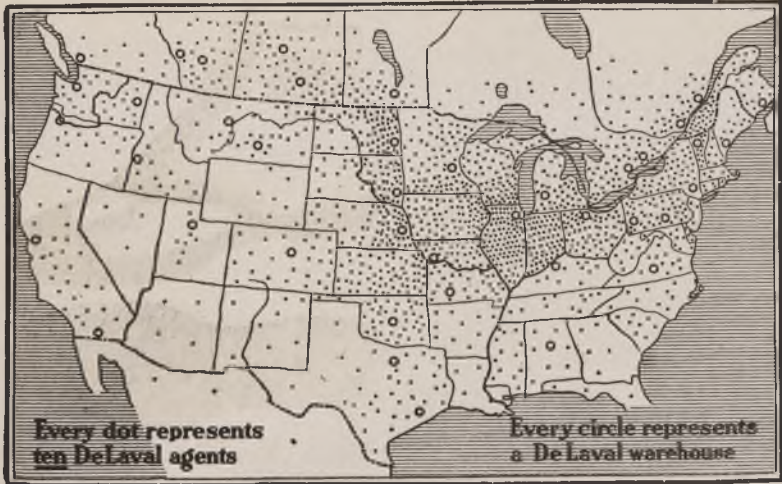

Letter men do not count in the score.

DeLaval Service Covers the Continent

This map shows how completely the service of the De Laval organization reaches every community

Every separator user realizes the importance of having his separator in use every day. Delays waiting for parts, with a separator out of use, mean great inconvenience and loss of product.

Every dot on the map represents ten De Laval agents, and every De Laval agent is individually trained to assist his customers in setting up and operating their machines, to furnish and put in place repair parts, and to insure prompt service and satisfaction to De Laval users.

Not only is the De Laval Cream Separator superior in all points of separator efficiency, but every user of a De Laval is assured of prompt and competent service for all the years to come.

It is therefore not surprising that there are more De Laval Separators in use than all other makes combined. Now is a good time to begin saving time and product by securing a De Laval.

The nearest De Laval agent will be glad to demonstrate a De Laval. If you do not know his name, write to nearest De Laval office

Personality Training Course

Are you self-conscious? Are you embarrassed or confused when meeting people for the first time? Are you at a loss when prevailed upon to make a speech at a banquet? The Personality school can train you to have perfect self-confidence, self-assurance, grace, and an attractive, forceful and magnetic Personality. Personality is an Art; a New Art; a New Courage to cope with the fast and ever-progressive world. The old ideas are played out. Scientific methods are the only kind that will reach the mark. We teach you to have Personality. It takes but little of your time. A few lessons and you will understand why. Representative will call upon request. Write for interview.

QUICK SERVICE AND COURTESY

NEWSY ITEMS OF THE ALUMNI.

Leonard S. Morrison, '10, who is superintendent of schools at Lisbon, N. H., visited Durham Saturday and spoke before the class in Education 10c, relative to his work as a superintendent.

C. D. Sawyer, ex-'20, returned recently from overseas, where he served with the Scottish "Black Watch" and is enrolled in the junior class at Yale. His address is 420 Yale Station, New Haven, Conn.

Frank D. Lane, '07, is instructor of Mathematics and Mechanical Drawing in the Technical High school at Fall River, Mass.

George A. Halvoren, '14, is doing landscape gardening work in Buffalo, N. Y. His home address is 618 Wyoming Avt., Buffalo, N. Y.

John T. Cullinan, ex-'19, who left college to join the colors, writes that he is stationed at Fort MacHenry, Indiana, and that he intends to resume his studies here next year.

Elsie L. Kling, '18, is teaching Home Economics in the High school at Meredith, N. H. Her address is "The Maples," Meredith, N. H.

R. H. Kinder, '15, is now assistant principal of the High school at Wakefield, Mass.

Fernando Salcedo, ex-'20, is working for the Columbian Commerce Corporation with headquarters at 301 West 69th Street, New York, N. Y.

Phillip Brooks Badger, ex-'18, is residing at 207 Rutland Street, Portsmouth, N. H.

Norman R. Bean, ex-'21, is negotiating with Dean Pettee concerning a transfer to the University of Pennsylvania.

Stephen DeMerritt, '12, who is with the Westinghouse Lamp Company of Woburn, Mass., visited his mother, Mrs. E. P. DeMerritt, over the weekend.

Ralph M. Sanborn, '13, who preceded "Ducker" Davis at Thornton Academy, is now physical director for the Y. M. C. A. at Augusta, Me. Mr. Sanborn has the distinction of being the first alumnus to send in a pledge to the Memorial Fund.

Ward B. Rounds, two-year '17, was the first two-year man to subscribe to the Memorial Fund.

Harry W. Evans, '01, who has a responsible position with Lockwood, Greene and Company of Boston, sent in a very liberal subscription to the Memorial Fund.

John P. Trickey, '09, is working at the Miner Laboratories in Chicago on a chemical research problem for the Quaker Oats Company of that city.

C. L. Perkins, '10, although doing special work for the Utah Copper Company of Garfield, Utah, has not severed his connection with the Mellon Institute of Pittsburgh, Pa.

W. F. Langlier, '09, is associate professor of sanitary engineering at the University of California.

Leo Robinson, '16, is County Agent for Hillsboro County.

Jacob A. Hollenbec, ex-'23, was married on April 11, 1920, to Hazel S. Winn, '18, of Dover N. H. Prior to her marriage Miss Winn was teaching school in Lisbon, N. H.

F. M. Hobson is in the Supply Department of the General Electric Company of Schenectady, N. Y.

Arthur W. Smith, '93, is Associate Professor of Physics in the University of Michigan. Mr. Smith's address is 1008 Oakland Ave., Ann Arbor, Mich.

Lewis H. Kenney, '99, is a Mechanical Engineer in the machinery division of the navy yard at Philadelphia, Pa. His home address is 114 North 34th St., Philadelphia, Pennsylvania.

Charles A. Payne, '02, is with the General Electric Company at Schenectady, N. Y. Mr. Payne writes that he is desirous of forming a branch of the Alumni Association in his city.

Rev. Ernest L. Converse, '06, has removed from Meredith, N. H., and is at present in Pittsfield, Me., where he is pastor of the Baptist church.

Benjamin F. Proud, '11, is Athletic Director at the Hackley School in Tarrytown, N. Y.

Mrs. John T. Croghan (Margaret D. Croghan), '11, has removed from

Belmont, Mass., to Woburn, Mass., where she is residing at 574 Chestnut Street.

Philip L. Gowen '12, is junior chemist in the Bureau of Chemistry at Baltimore, Maryland. His business address is 300 Park Avenue, Baltimore, Maryland.

Perry E. Tubman, '13, is Chief Equipment Manager of the American Telephone and Telegraph Co. of Barrington, R. I. His business address is 57 Edy Street, Providence, R. I.

BIG BONFIRE SHOWS JOY OF STUDENTS.

Appreciation of Nightingale's Wonderful Performance Shown by Gathering of Cheering Students

In celebration of the great victory that Gordon T. Nightingale won over the greatest of England's long distance runners last Friday afternoon at the Penn Relay carnival at Philadelphia a great bonfire and sing was held on Bonfire Hill soon after the news of the victory reached Durham. The men students of the college turned out en masse and gathered all the combustibles in sight for the great pile which, when at last lighted, made the sky turn red for miles around.

President Hetzel addressed the men and women who gathered around to pay tribute to New Hampshire's great athlete and in his usual pleasing manner told the students of the satisfaction that one has when a great deed is done whether it be on the athletic field or in the halls of research of the laboratories of experiment. He said the greatest thing on earth is to know that you have done your best at every task set before you.

COACH PAYS TRIBUTE

Coach Cowell in his few words of commendation of "Night's" great performance said that he had always believed that "Night" would come through a victory and that he considered Nightingale to be an ideal athlete. He recalled the arrival of the "olive complexioned lad" at Durham, having been recommended to New Hampshire by an old grad who had seen him pitch baseball and recounted his history as a college athlete. It was as a baseball player that "Night" came to New Hampshire but since coming here he has never played the game of his "prep" school days. He became interested in the track game shortly after coming to college and has been making great progress at the game all the time since.

Mr. Cowell said that it was the kind of spirit that Nightingale has exhibited that makes a man successful in both athletics and in life after college. It is the spirit of aggressiveness and stick-to-itiveness that wins for a man the laurels which always come to those who work faithfully toward an ideal.

The happy students cheered "The Prexy," the Coach, and their honored runner many times and with hearts filled with cheer closed the most enthusiastic of celebrations since last season's famous football season with the hearty singing of Alma Mater.

LOOMIS-PHILP.

The marriage of Miss Edna Mae Philp, daughter of Mr. and Mrs. Harry Ellis Philp, to Glenn Moore Loomis, '13, of Manchester, New Hampshire, was solemnized on Saturday evening, April 24th, at the home of the bride 44-18th St., Buffalo, N. Y., Rev. B. S. Ferrall, officiating.

The bride wore a gown of white crepe meteor and rose point lace, with veil of Tulle fastened with orange blossoms. She carried a shower bouquet of white roses, and wore the gift of the groom, a rope of pearls.

Her attendant, Miss Charlotte Blanche Philp was gowned in turquoise metaline cloth, overdress of silver lace, and carried an arm bouquet of daffodils.

Mr. Lee Chambers Ballou was the best man. Miss Ruth Mae Shadler played the wedding march.

The house was decorated with ferns, Killarney roses and daffodils. Miss Charlotte Philp, Miss Ada Mac Lean and Mr. Edward Bruse sang.

The bride and groom will be at home in Buffalo, N. Y., after an eastern trip.

Among the out of town guests was Miss Ruth Hunter of Boston.

VARSITY NINE SCORES FIRST WIN

Lowell Textile Easily Defeated in Third Game

SCORE 8-3

Visitors Fail to Solve Bissonnette's Delivery—Freshman Twirler Fans Sixteen—New Hampshire Hits Well—Make Up for Last Year's Defeat

The varsity baseball team romped off with Lowell Textile last Saturday at the college oval by a score of 8-3. The Blue and White led all the way, and easily outclassed the visitors. However, the work of some of the New Hampshire men was poor at times, especially the base running. Bissonnette, the freshman pitcher, twirled the entire game, and held Textile to six hits, striking out sixteen. He also got three safe bingles himself.

TAKE LEAD

New Hampshire took the lead in the first frame, counting three times on three hits and an error. Perry singled, and Butler was safe when the pitcher threw poorly to first. Connor singled, scoring Perry, Butler stopping at second. Bailey sacrificed, and Bissonnette's safety counted Butler and Connor. Lorden was safe when the fielder attempted to catch Bissonnette at second, but Broderick and Rumazza failed to connect.

In the third, Clayton failed to knock down Bailey's hot drive and after stealing second, "Bo" scored on Bissonnette's healthy double. Bissonnette advanced on Lorden's infield out and scored on Broderick's single. In the seventh, New Hampshire garnered two more on two passes and two errors. Rumazza got the final run in the eighth, scoring on Perry's double after having been walked.

Lowell's runs all came in different sessions, one at a time. In the second, Forsaith walked, stole second, going to third, as Champaigne's throw went to the outfield. He scored later on a passed ball. In the third the first two men singled, but Bissonnette fanned the next three in quick order.

Farwell was safe in the fifth when Lorden missed his grounder, but was forced at second on Clayton's attempted sacrifice. He then scored on Scott's hit. Macher singled in the sixth, stole second, and when Butler missed Champaigne's throw, counted for Lowell's third run.

Perry, Butler and Bissonnette played well for New Hampshire, while Scott and Macher played best for the visitors.

FRESHMEN LOSE TWO ON TRIP

Tufts '23, Wins 1-0 and Harvard '23, 6-2

GAMES WELL PLAYED

Tufts Game Turns Out As Pitcher's Duel—New Hampshire Freshmen Field Well—Kroog Pitches Harvard Yearling Game—Umpiring Good

N. H. '23-0, Tufts '23-1

The freshman nine dropped their game with Tufts freshmen 1-0 Friday at Medford. The game was well played on both sides and was a pitching duel between McGreal and Keefe. Both twirlers kept the batters well in hand and tightened up at all critical times. The Blue and White played a good fielding game, but were weak at the bat, getting but four safe bingles. TUFTS SCORES

Tufts lone score came in the seventh when Loud doubled and scored when Roy muffed Upton's high fly. New Hampshire lost a chance to score in the second; Lewis was safe on Hutchins error, stealing second and third. Carr drew a pass and also stole second. Lewis, instead of starting for home with the catcher's throw, did not start until the second baseman had the ball; as a result, he was nipped at the plate.

With two down in the fourth, Brown doubled, but was left on when Lewis fanned. The Tufts yearlings were retired in one, two, three order, in five of the eight innings. McGreal, Farmer and Carr featured for the freshmen, while Loud and Cohen played well for Tufts.

The score:

| Tufts Freshmen | | ab | r | h | po | a | e |
|----------------|--|----|---|---|----|---|---|
| Kennedy, r. f. | | 4 | 0 | 1 | 1 | 0 | 0 |

Harvard '23—6, N. H. '23—2.
Saturday afternoon at Soldiers' Field, the youngsters were again defeated. The Harvard cubs connected at the right times, counting six times while New Hampshire only got two. Kroog pitched well, but his backing was faulty at times, allowing the home team to score.

In the second, Worthington singled stole second, went to third on a passed ball, scoring when Campbell dropped Carr's throw of Lee's ground-er. In the third, Carr walked and stole second when Kroog attempted to bunt but missed. Kroog then sacrificed Carr to third, and Ray laid down a perfect bunt, Carr scoring. However, Harvard went ahead in their half, when Clark singled, was sacrificed to second and scored on Owen's hit.

FRESHMEN TIE SCORE

New Hampshire again tied the count in the fourth. Lewis got a life when Worthington booted his fly, going to second on the same play. Campbell walked, and Lewis scored from second when Field muffed Farmer's pop fly. Farmer, Carr and Kroog singled in quick succession in the seventh, but poor base running prevented them from scoring. The Crimson nine put the game on ice in this frame, tallying four times. Lee singled, Vitkin flied to Brown, and Keegan walked. Field's double knocked in Keegan and Lee, Field going to third on the throw in. Clark was passed, and on a passed ball, Field scored and Clark went to third. Thayer's long sacrifice fly enabled Clark to score.

Kroog and Farmer played well, while Clark, Lee and Field featured for the home team.

ANNUAL R. O. T. C. INSPECTION HELD ON APRIL 23.

The annual inspection of the R. O. T. C. unit was made Friday afternoon, April 23, in the gymnasium. The inspecting officer was Lieut. Col. Guy G. Palmer, department inspector of R. O. T. C. units. Owing to the weather, the inspection had to be carried out in the gymnasium and was of course somewhat limited. Close order drills, manual of arms, and personnel inspection constituted a large part of the program.

Everything was well executed and reflected much credit on the students and the whole military department. Col. Palmer made the remarks that the organization at this college is in first class condition, and especially commended the way in which all the movements were carried out. In general, he had nothing but praise for the work done here by the military department.

ISSUES CALL TO BOYS AND GIRLS.

A call to all boys and girls in the state to help the farm labor situation by enrolling this year in home garden, canning and other projects of the boys' and girls' clubs was issued today by Director J. C. Kendall of the

Rochester, N. H. Boston, Mass.

New Hampshire College Extension Service.

"The boy with the hoe and the girl with the can-rubber were important figures in New Hampshire during the war," says Director Kendall, "and just as they served their country then, they can serve their own fathers and mothers now. The farmer today is as truly disabled as though he had lost an arm in the war. He has lost his hired men because he cannot afford to pay the wages offered by the mills and railroads. Under these conditions he will not be able to keep up the past scale of production; and unless the unforeseen happens, food will be scarce and high next winter."

"Many a boy by keeping a garden, a field of potatoes or corn, or raising a pig can help his father materially on the farm this year; and in the same way many a girl by canning food can fill up the home cupboard for next winter. It is no longer a question of patriotism; it is a question of the family pocketbook. We do not want to encourage young people to start in club work, unless they are prepared to see it through; but where boys and girls are truly interested, the County Farm Bureaus and State Club Office are prepared to help them to the limit."

The Mu Alpha Chapter of Chi Omega fraternity gave a tea to its patronesses Tuesday, April 20. This was given in order that the patronesses might become better acquainted with the new girls of the fraternity.

FINE SPEAKERS SECURED FOR COMMENCEMENT.

The Commencement Committee announces that Rev. Paul Revere Frothingham, A.B., S.T.B., D.D., of the Arlington Street Church, Boston, will preach the sermon on Baccalaureate Sunday, June 20. Dr. Frothingham is one of the best known ministers in New England; a member of many societies, and an author of note.

The Commencement speaker will be Col. Raymond Robbins, LL.B., of Chicago. Col. Robbins is one of the best speakers in the United States. He did noteworthy service with the Red Cross during the war, and has had abundant experience in social work. He was candidate for United States Senator in 1914 and presided over the Progressive National Convention in 1916.

GIVE BUSINESS VALUE TO YOUR SUMMER VACATION.

In these strenuous days when the college student is being challenged as to how the vacation period is utilized, we are pleased to call the attention of the students to the advertisement in this issue regarding the summer session at Bryant & Strattons, Boston. The superior instruction given by this institution during the past fifty-five years has given it a national reputation, and we are pleased to recommend it to all that desire training for business.

"Gentlemen," said the professor, "the general function of the heads of several learned members of this class is to keep their neckties from slipping off."

The Church in Durham

REV. VAUGHAN DABNEY, Pastor.

Sunday, May 9, is the time set apart for the observance of Mothers' Day. Durham Church will observe the day with appropriate exercises. It is customary to wear a flower in honor of mother, and to send her a letter on that day.
